Hi Steve,

I just wanted to thank you again for the two Deuce amps (both w/Burr Brown) that I picked up recently. These amps are beautiful and very impressive to look at. My wife was really surprised at how great they look since she really wanted me to get another McIntosh. This of course made it easy for me to justify the purchase while still sleeping in the house. LOL!!! They are large amps but very easy to mount and get setup.

The two Deuce amps replaced a US Amps 4300X and a 600X and I was amazed at the difference in the way my Dyns and Soundstream Exact sub now sound. Warm and extremely detailed are words that come to mind. The Deuce's are far and away providing more power and clarity than I have ever experienced. I have owned McIntosh, Alpine, Rockford and US Amps and have listened to many of the top end amplifiers as well. Though the McIntosh was supposed to be in a different class your amps are equally as clean and noise free while providing me with enough power to fill my system needs. I am so very happy that I chose to spend my money with Zed Audio. It was a great pleasure to meet you as well.

Thanks again,

Keith & Nora Edelen
